

Keeping your swine in check. The **smart way**.

BioChek Swine Diagnostics Portfolio

BioChek

SMART VETERINARY DIAGNOSTICS

Adding value to test results

BioChek specializes in diagnostic kits for the Swine, Food Safety and Poultry industry. These ELISA and PCR test kits provide information needed for diagnosing clinical problems, monitoring and confirming health status, and evaluating interventions such as vaccination. This allows producers and veterinarians to take corrective action when the assays indicate a health problem.

The complete BioChek package also includes monitoring software, an easy to interpret dashboard, extraction equipment and reagents, RoboPrep, BioChek ELISA Assay Robot (BEAR) and worldwide technical support.

Overview of swine products and services[✓]

ELISA Test Kits Swine

Product		Product#
Salmonella Group B, C1 and D Antibody Test Kit	Salm Gp B/C1/D ELISA	SK101
Aujeszky g1 Antibody test kit	PRVg1 ELISA	SK102
Haemophilus parasuis Antibody test kit	Hps ELISA	SK104
Porcine Circovirus type 2 Antibody test kit	PCV2 ELISA	SK105
Classical Swine Fever Antibody test kit	CSF ELISA	SK106
Mycoplasma hyopneumoniae Antibody test kit	Mhyo ELISA	SK108
Aujeszky gB Antibody test kit	PRVgB ELISA	SK109
Porcine Reproductive Respiratory Syndrome Ab test kit	PRRS XR ELISA	SK112
Multispecies Influenza A Antibody test kit	InfA Multi ELISA	CK401
Actinobacillus pleuropneumoniae OMP Antibody test kit	App OMP ELISA	KIT6071
Actinobacillus pleuropneumoniae ApxIV Antibody test kit	App ApxIV ELISA	KIT6072

ELISA Accessories Swine

Product	Product#
Pre-diluted Reference	SR700

[✓] BioChek continuously innovates, and regularly develops and introduces new tests.

Real-Time PCR Test Kits Swine

Product

vetproof® Porcine Reproductive and Respiratory Syndrome Virus qPCR test kit
vetproof® Influenza A Virus qPCR test kit
vetproof® Salmonella Species-Enteritidis-Typhimurium qPCR test kit
vetproof® Salmonella Species qPCR test kit*
vetproof® Porcine Circovirus Type 2 qPCR test kit
vetproof® Mycoplasma Hyopneumoniae-Hyorhinis-Hyosynoviae qPCR test kit
vetproof® App-Hps-Mhyo qPCR test kit
vetproof® African Swine Fever Virus qPCR LyoKit LP test kit
vetproof® African Swine Fever Virus qPCR LyoKit RP test kit
vetproof® Lawsonia intracellularis qPCR Kit
vetproof® Brachyspira hyodysenteriae/pilosicoli qPCR Kit

*AFNOR certified / qPCR Reagents NPIP approved

Why BioChek?

The Complete BioChek Animal Health Monitoring System offers you a tailor-made advanced diagnostic solution.

- ✓ Extensive and varied range of ELISA and PCR tests for swine (and poultry), with reference controls for ELISA and standards for PCR included. Our innovative R&D team continuously works on developing new tests in close consultation with swine (and poultry) professionals.
- ✓ Unique BioChek Monitoring Software that enables you to manage your data easily and reliably, analyse trends and compare data using customized reports. The database management program combined with an online database gives you 24/7 access to completed results.
- ✓ Automation robots that are complete solutions for running ELISA and PCR diagnostics, accurate and easy to use: simply load and walk away.
- ✓ Exceptional service level with optimum customer support. BioChek provides technical support, training, and instruction (on-site if desired), and also helps you monitor and interpret results correctly.

Choose BioChek for confidence in every diagnosis.

BioChek Swine Portfolio

 **BioChek**
SMART VETERINARY DIAGNOSTICS

Since 1997, BioChek has been supporting the poultry and swine industries to help improve livestock productivity and promote animal health. BioChek's extensive portfolio of veterinary diagnostics is used worldwide to detect a wide range of poultry and swine diseases. Our head office is based in the Netherlands, and we have an R&D department and production facility in the UK, a USDA-licensed facility in the USA, a regional office in South Africa, regional and local sales teams, and numerous distributors across the globe.

BioChek Animal Health Monitoring System

- ELISA & PCR diagnostic test kits
- Reference controls (ELISA)
- Extraction Solutions and Standards (PCR)
- BioChek Monitoring Software
- BioChek ELISA Assay Robot (BEAR)
- RoboPrep nucleic acid extraction robot
- Dedicated Technical & Logistics Support
